Reporting of Tips May Raise Social Security Benefits

MICHAEL G. ANDRIA

Michael Andria, 76, Dies; 62-Year Resident

Michael G. Andria, 76, of 1747 Olive street, died at 6:30 p.m. Monday at Jewish Hospital, St. Louis, where he was a patient 27 days. He had been ill for the past month and recently underwent surgery.

A Quad-City resident for 62 years, Mr. Andria was born in Resen, Macedonia-Yugoslavia. He was a member of Holy Trinity Bulgarian Eastern Orthodox Church of Madison and the Podkrepa Society. He also was a charter member of the Bashtin Kral organization of Madison.

Prior to retirement in 1966, Mr. Andria was employed 47 years as a general foreman at General Steel Industries. Since retiring, he had been associated with Andria's Liquor store in Granite City.

Did cash tips make up part of your income last year? If so, are you familiar with the regulations relative to withholding for income and social security taxes on such wages?

The Internal Revenue pointed out today that every employee who receives cash tips of \$20 or more in any calendar month while working for one employer must report the amount of tips received during the month to that employer.

Jay G. Philpott, district director, said cash tips are subject to withholding of income and Social Security taxes, and must be reported to the employer on or before the 10th day of the following month.

The IRS has available free of charge Document 3640, "Reporting Your Tips for Federal Tax Purposes," which answers many questions on this subject. Document 3655, "Employee's Dally Record of Tips and Report of Tips to Employer," which is also free, contains a supply of the forms needed to make the necessary reports, and provides space to record each day's tips for 12 months.

Philpott emphasized that tip income counts toward Social Security and Railroad Retirement benefits and may result in higher benefits for the employee and his family.

April 3 Deposit Deadline

He also noted that employers who are liable for the withholding of income taxes and Social Security taxes in excess of \$250 for any month of the preceding calendar quarter are required to make semi-monthly deposits of withholding and Social Security taxes.

The second semi-monthly payment for March must be deposited on or before April 3.

All employers should use Federal Tax Deposit Form 501 in making the deposits in a Federal Reserve Bank or an authorized commercial bank, Philpott said.

"Employer's Tax Guide," (Publication No. 15), commonly called Circular E, furnishes detailed information on this subject and may be obtained by sending a postcard to the District Director, Internal Revenue Service, Springfield, Ill. 62704.

Illness Halts Try For Monopoly Record

A 27-hour effort to reclaim the world record Monopoly playing championship for Granite City by a trio of local college freshmen was abandoned at 10 a.m. yesterday when two participants became ill with a stomach virus.

The world record of 62 1/2 hours, set Dec. 29, by five Granite City high school students, was smashed Jan. 25 by a quintet of Palestine, Ill., players, who claimed a new record of 68 1/2 hours.

The local youths, all of whom are in their freshman year at Southern Illinois University-Southwestern campus, include Ken Williams, 2662 East 24th street; David Walton, 2566 Center street; and George Heth, 3022 Washington avenue. They hope to reschedule the game in the future.

Articles by Sister Thomas In 2 Nat'l. Publications

Two articles written by Sister Mary Thomas, administrator of St. Elizabeth Hospital, have been published in the most recent editions of two hospital periodicals.

In the March issue of "Hospital," journal of the American Hospital Association, an article "Good Organization, Good Records Reduce Maintenance Costs" explains what has been done to reduce maintenance costs over the past five years from 6.41% to 3.98% of total costs. In the article, Sister Mary Thomas explains the workings of a detailed preventive maintenance program.

The second article, "The Value of an Administrative Council," is published in March 1968 "Hospital Management," a journal for hospital administrators and department heads. The problem of overlapping authority for the six staff members—personnel director, public relations director, materials manager, methods engineer, education director and controller, and how it is solved by an administrative council is the subject of the article.

These most recent articles mark the second time material submitted by Sister Mary Thomas has appeared in national periodicals. In August 1965, an article about the need of salaried physicians in emergency rooms was published in "Hospital Progress."

Area Hogs Slaughtered In Latest NFO Action

Approximately 100 hogs taken to a Madison county farm by members of the National Farmers Organization were slaughtered yesterday as part of a nationwide effort to keep hogs off the market in the NFO's latest holding action.

The hogs were shot on the farm of Omar Perschbacher, three miles south of Highland, and were buried in a large trench dug by a bulldozer after the farmers organization were unable to obtain donated services of a meatpacker to process the animals for distribution to the poor.

Erwin Wein, chairman of the county NFO organization, said efforts had been made to get the meat processed and laborers at the packing houses had offered to donate their services to permit its distribution in the needy through welfare agencies.

During the 1967 milk-holding action, area NFO members donated their milk production to charity, Wein noted, while other farmers in the nation dumped milk.

Goal of the NFO meat-holding action on hogs is \$23 per hundredweight.

7000 Prospective New Students in Fall at Carbondale

More than 7000 prospective new students have applied for fall admission to Southern Illinois University's Carbondale campus, according to SIU admissions director Jerre Pfaff. A record number of applications as had been received by the same time a year ago. Despite the increase, there are no plans to suspend or close fall quarter admissions, Pfaff said.

Opening of two new 17-story residence halls and a smaller-than-usual 167 freshman class, compared to total enrollment, should combine to permit acceptance of all qualified students who apply, Pfaff said.

Major reason for the increase is that SIU now accepts applications from students after they have completed the junior year of high school. Previously, high school students had to wait until their senior year to request admission. The SIU admissions office is estimating that 1468 applications for the start of school two months away.

A total of 27,768 students were in residence at the two campuses in the fall term last year. Of those, 3880 were beginning freshmen.

MORE ABOUT A. O. Smith

Granite City automotive frame plant. Cited as the basis for the recommendation are factors relating to historically unsatisfactory economic results, accumulation of losses due to the strike, and the loss of business resulting from the customer's removal of the Corvete assembly fixtures.

It is anticipated that a decision on the recommendation will be reached by March 25. The strike of Bollemakers Local 575 is in its 11th week. The union rejected a contract proposal on March 6.

The delegation which went to Milwaukee yesterday was part of a 20-man committee formed to study the means of halting the threatened plant removal. The company's plant investment here is estimated at from \$12 to \$13 millions.

Removal of the A. O. Smith plant from Granite City would result in an almost insupportable economic impact upon the entire Quad-City area.

A tangible payroll loss of approximately \$13 millions a year is foreseen in the shutdown of the A. O. Smith plant alone, but an additional \$5 to \$7 million dollar payroll loss per year would result at Granite City Steel Co. where approximately 10% of the mill's steel production is for the manufacture of auto frames.

A total of from 1200 to 1400 workers would be thrown onto the area's unemployment rolls from the A. O. Smith plant, with more hundreds unemployed due to cutbacks made necessary at Granite City Steel Co. by its loss of business with A. O. Smith Corp.

While these are determinable losses based on payroll origin, the actual economic loss is perhaps triple that amount when it is considered that the annual payroll is spent primarily with area merchants who turn over their income again in purchase of more goods and supplies from businesses that in turn again with their suppliers.

Area civic leaders and public officials pointed out also that removal of the plant would have considerable impact upon the image of labor-management relations which, they noted, have improved considerably in recent years. Development of a 9000-acre industrial park now available in North St. Louis County would suffer from the plant removal.

The 20-man Citizens Committee formed Saturday morning whose objective was to avert the shutdown of the plant if at all possible first met last Saturday afternoon when it was learned that the company's reported intent was to take the auto frames plant out of Granite City was no idle threat designed to invoke a settlement of the Bollemakers strike.

While the group discussed ways and means of persuading the A. O. Smith Corp. to forego its threatened action, any final decisions were held in abeyance because the scheduled 10 a.m. Sunday meeting of the Bollemakers union membership to consider the third complete contract offer made by A. O. Smith after four days of negotiations last week.

Those negotiations followed rejection of an earlier offer by a standing vote on March 6, in which only two workers out of 1000 attending the meeting in the Legion Hall at Venice stood in favor of the contract proposal.

Review Contract Terms
The union met Sunday, with more than 800 members attending, and again went over terms of the company's contract proposal which, Union President Elmer "Bill" Warfield admitted, was changed little from the offer upon which the union had voted March 6. Still at issue was the controversial seniority issue involving a statement issued by Warfield and Cox said:

"In the course of negotiations on a contract with Bollemakers Local 575, representatives of A. O. Smith Corporation have repeatedly informed the union that the company intends to leave Granite City unless the union gives up benefits and conditions which have resulted from past agreements with A. O. Smith Corporation covering fourteen years of collective bargaining.

that during the final hours of the negotiations last week, David Harris, a company negotiator from Milwaukee, had revealed the company's determination to remove the plant from Granite City.

"Harris showed us a letter signed by seven top officials of the A. O. Smith Corp. which stated that a meeting of the board of directors is to be held March 25 to consider removal of the plant from Granite City," Warfield related.

He said union representatives asked Harris if the men would return to work if the contract proposal were ratified in Sunday's union membership meeting.

Might Never Reopen
"He told us they would not," Warfield continued. "He said that under no circumstances would the plant open until after the March 25 board of directors meeting, and he indicated it might never reopen. He did tell us that he personally would recommend the plant continue in operation if the union membership ratified the contract proposal."

Most of the members who called to be heard on the matter were in the plant, termed the threatened plant shutdown, a "bluff." They said it had happened before and that it was not going to frighten them into a contract that was unacceptable. There were no specific objections to proposed wage increases, increased insurance benefits and other issues, although many of the members appeared unable to understand the meaning of a 16-cent limitation on cost-of-living raises for the three-year period.

In a secret ballot that took more than two hours to cast and tally, union members rejected the contract proposal by a vote of 486 to 365.

As a result, the Citizens Committee met again Monday morning and in that meeting intensified its efforts to persuade A. O. Smith Corp. to keep the plant in Granite City. It arranged a meeting with union officials Tuesday afternoon.

Union Officials at Meet
Four union officials, including Warfield, Cox, Melvin "Red" Hill, secretary, and James Sergetti, a member of the negotiating committee, attended the meeting. Harold Greenberg, St. Louis attorney representing the union, also attended.

Howard Kaseberg, president of the Tri-Cities Chamber of Commerce who presided at the meeting, said union officials agreed that the threat to move the A. O. Smith plant out of the area seemed to be a bluff and that a critical economic impact upon the entire area would result from such a move.

Members of the Citizens Committee in attendance included the three mayors of the Quad-City area, Partney, Maeras and Dr. Lee, who also had attended last Saturday's session and the meeting held Monday morning.

The union officials recognized the critical potential of the situation and at that time presented their proposal for a special "mayor's committee" to help reinstate negotiations between the company and the union.

The Citizens group stressed during the meeting that it had no intention of interfering in labor problems, but that the critical economic aspects of the threatened plant removal justified every move toward bringing the company and union together.

Union Suggests Action
The union suggested during the Tuesday afternoon meeting at the Chamber of Commerce office that a mayor's committee consisting of Mayor Partney and Granite City aldermen Claude Green and Clyde Boyd be set up for the purpose of attempting to revive negotiations between the company and the union, with the committee to function as "mediators in the elimination of differences between the company and the union on contract terms."

A statement issued by Warfield and Cox said:

"In the course of negotiations on a contract with Bollemakers Local 575, representatives of A. O. Smith Corporation have repeatedly informed the union that the company intends to leave Granite City unless the union gives up benefits and conditions which have resulted from past agreements with A. O. Smith Corporation covering fourteen years of collective bargaining.

"The union officers sincerely trust that resumption of negotiations with the assistance of the mayor's committee will facilitate the reaching of an agreement between the company and the union, and the union will, by reason of such belief, convene a meeting of its membership this coming weekend to inform the membership of progress made in negotiations."

Resolutions expressing the deep concern of the area over prospects of the plant closing and calling upon A. O. Smith to retain the plant in Granite City were adopted by the city councils of Granite City, Madison and Venice.

Would Resume Negotiations
"Bollemakers Local 575 requests that the mayor utilize his good offices to arrange for the prompt resumption of negotiations with the company in Milwaukee and further requests that when such negotiations are resumed, the mayor's committee attend."

"The union officers sincerely trust that resumption of negotiations with the assistance of the mayor's committee will facilitate the reaching of an agreement between the company and the union, and the union will, by reason of such belief, convene a meeting of its membership this coming weekend to inform the membership of progress made in negotiations."

Co-Champs Dominate 5th Annual MCM All-Conference Cage Squad

The Venice high school Red Devil basketball team and the Bunker Hill Minutemen, who ended the year tied for first place in the Madison-Clinton-Macoupin Counties Conference, dominated the fifth annual Press-Record conference all-star team selected by the seven coaches in the league.

John Gardner is the Red Devil representative on the 1967-68 team, The Minutemen placed two on the all-conference squad — Rick Scroggins and David James.

Rounding out the first team are Dennis Schuette of Livingston and Dan Emming of Aviston.

Gardner and Scroggins also were chosen last year (with Rich Essington of Venice, Terry Buhs of Bunker Hill and Gerald Semanek of Livingston).

Athletes selected for the second team were Russell Turner of Venice, Jim Vazzi of Worden, Steve Dickman of St. Paul of Highland, Randy Morris of Bunker Hill and Don Waters of Livingston.

Receiving honorable mention were Worden's Ned Keesman and Dave Helt; Livingston's Bill Genczo and Mike Kovaly; Venice's Larry Mobley; Aviston's Bill Harr; St. Paul's Dube, Tom Kamper and Tom Hogg; and Brees's Bill Poulker and Bill Smith.

Each coach excluded his own players in the balloting. A candidate receiving a first team vote was given two points; those named in second team votes were given one point.

each. Total points determined the all-conference team.

Coaches who took part in the selection of players were Bill Ohlendorf of Venice, Jim Wink of Bunker Hill, Lee McKinney of Worden, Charles Lasco of Aviston, Ron Hampton of Livingston, Mike Shennig of St. Paul and John Neverstitch of Brees.

Gardner, a 6'2" senior letterman, averaged 18 points a game. He shot 41% from the field and 66% from the free throw line. Coach Ohlendorf said, "John is a great shooter from the outside. Most of the points he made this season were on goals from 18 to 20 feet outside the key. He was tremendous in hitting when we couldn't penetrate an opponent's zone defense close to the basket."

Gardner is a four-year letterman, including the letter he will receive this year. Emming, a 5'10" junior guard, was high scorer for Aviston, getting a total of 700 points in 25 games this season. He ended the year with a 28-points-per-game average.

Emming had averages of 42% from the floor and 71% from the free throw line.

Emming was the "main man on our set-up plays," said his coach. "He was quick and is going to make a fine player next season."

Schuette was the tallest member of the Livingston team at 6'2". He played center and averaged 17 points a game. He was known mostly for his rebounding, leading his team with an average of 10 a game.

From the field, he had a shooting mark of 42%; at the free throw line he averaged 60%.

Scroggins, 5'10" senior guard on the strong Bunker Hill quintet, finished his career with a total of 1220 points. This season he had averages of 72% from the free throw line and an outstanding 62% from the field.

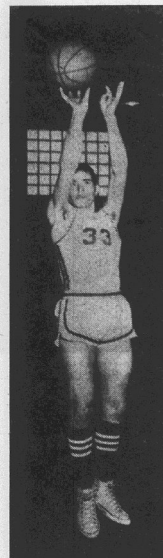

He was second on his team in rebounding with an average of 10 a game.

His high game this year was 56 points against Brees, a school record. He did not play the last six minutes of that game.

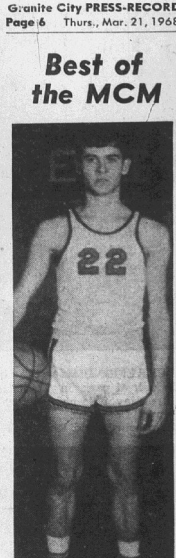

Scroggins' coach said, "He is a very exceptional player. He played up front on the press and forced many teams to make mistakes in trying to get around him."

James, a 6' senior, had a total of 434 points this season. He averaged 70% from the free throw line and 51% from the field.

He played under the basket, and was effective in the role,

30 Report for Madison High Track, Field Team

The Madison high school track team, headed by Harland Scheibel, started practice this week but has not had much chance to get outdoors due to the weather.

The 30-man squad is headed by three lettermen from last year, Van Ford, hurdles, Earl Malone, sprinter, and Tecumseh Holmes.

Couch Scheibel describes his team as "young and lacking in experience, with only one senior on the squad."

"We have been handicapped by the weather. Until we get outside I can't forecast what our chances will be this season."

The Trojans will have only two meets at home, a triangular against Belleville East and East St. Louis Assumption and a dual meet against Highland.

They will start their season April 2, traveling to Triad for an opening triangular meet against Highland and Triad.

Trojan Tennis Team Nearing Initial Meet

Spring is here, although yesterday's cool temperature and wet grounds hardly were ideal for high school athletics. Going by the calendar rather than the thermometer MHS tennis players are well into their pre-season drills.

Competition will formally begin with a dual meet at Trenton Wesclyn next Tuesday.

The Trojan tennis team, under the direction of its new coach, Mike Graville, has been indoors working on conditioning and timing, hitting the ball across the gym floor when the area is not filled by the baseball team and track team.

Graville has eight students on the squad this year, and half are lettermen — Dennis Holt, Ken Blattner, Charles Bosworth and Jim Purkaple. Rounding out the squad are Terrence Emerson, Howard Estes, Jerry Smith and Bob Allen.

The Trojans will play only one match at home this year, against Bethalto on April 21.

Madison high school does not play a Midwestern Conference schedule in this sport.

The MHS net schedule follows:

March 26—at Wesclyn of Trenton

March 28—at Mascoutah

Hearts Out of League After 31-Year Link

The Sacred Heart baseball team has bowed out of Southwestern League competition for the first time in the league's 31-year history, it was announced at a meeting of league officials and managers last night at the K of C club. Financial reasons were cited.

The team will be sponsored by Mercer funeral home, which had sponsored another team last season, according to Ollie Miller, league president.

Adrian Rains will be the new manager, succeeding Don Crabtree of last year's Hearts, and Dan Sheehan will be business manager.

All of the Sacred Heart players were declared free agents, but most are expected to join the Mercer team, Miller said.

The Collinsville Utes also have dropped out for the coming season, and the league will field eight teams, rather than the 10 last season. Each team will play a 12-game schedule, opening April 21.

The league lineup includes Mercers, Granite City Credit Union, Polish-American War Veterans of East St. Louis, Mollitor Motors of Collinsville, Maryville Red Sox, Peabody Braves, East Alton Bullets and Troy Red Birds.

Lambert Talk At HS Apr. 1

Paul M. Lambert, head baseball coach of Hardin-Simmons University, Abilene, Tex., was announced this week as guest speaker at a Granite City high school athletic banquet at 6:30 p.m. Monday.

Warrior basketball, wrestling and soccer athletes will be honored at the annual winter sports dinner.

Effingham, Evanston Favored at State

Who to cheer for? That is the problem facing Quad-Cityans in the state high school basketball meet opening tomorrow at the University of Illinois Assembly Hall in Champaign, now that the nearest team, Belleville West, has been eliminated.

If the tourney goes according to form—and it seldom does—Chicago Crane Tech (27-7) will defeat Peoria Central (24-5) at 2:45 p.m. Friday. LaSalle-Peru (27-4) may edge DeKalb (23-2) at 7:30 p.m. Friday and Effingham (30-0) will nose out Galesburg (25-2) at 9 p.m. Friday.

Favorites then would be Evanston over Crane Tech at 12:15 p.m. Saturday and Effingham over LaSalle-Peru at 1:45 p.m. Saturday, with Crane Tech narrowly defeating LaSalle-Peru for third place at 3 p.m. Saturday and Effingham conquering Evanston for the state title at 8:30 p.m. Saturday.

Super-sectional results Tuesday were Effingham 54, Belleville West 49 in overtime; Carbondale 68, Mount Vernon 65; Evanston 70, Lockport Central 58; DeKalb 73, Rockford Auburn 53; Chicago Crane Tech 73, Lyons of LaGrange 61; Peoria Central 83, Springfield Langhimer 72; Galesburg 61, Quincy 60 in overtime; LaSalle-Peru 77, Unbraten Danville Schlarman 68. The Carbondale, Evanston, LaSalle-Peru and Peoria Central wins were regarded as upsets.

Park Winter Carnival Tonight at GCHS

The Granite City park district will hold its annual "winter carnival" tonight at 7:30 at the Granite City high school memorial gym. There will be exhibitions of the various sports which the district offers during winter months, plus baton twirling and a square dance program.

Those taking part are asked to be at the gym by 7 p.m. The show is to start promptly at 7:30. Park President Barry Loman will be master-of-ceremonies.

GCHS Baseball Opener Cancelled

The Granite City high school baseball team, scheduled to play its first game of the season at Wilson Park Wednesday afternoon, was forced to cancel the contest against O'Fallon due to wet grounds and 38-degree temperature. The game will not be rescheduled.

The squad is scheduled to travel to Staunton tomorrow for a 4 p.m. clash, but the game is doubtful unless there is an improvement in the weather.

gers in her car were injured in a two-car collision at Second street and Cambridge avenue, Madison, at 4:50 p.m. Tuesday, according to a report to Madison police.

The mishap occurred when a car driven by Maude L. Gerstner, 96 Bend road, headed north on Cambridge, was struck from the rear by a car driven by Katherine L. Miller, 1111 Greenwood avenue, Madison, who said her car skidded on wet pavement when she tried to stop.

Police reported Miss Miller, 19, and two passengers, John Weiler of 120 Abbott street, Venice, and Terry Lany, 22, of 1633 Ferguson street, were injured in the collision.

A hunt for a crashed car, a collision at August and 24th streets at 11:52 a.m. Tuesday, resulted in one motorist charged with failure to yield to a pedestrian and two passengers in the other car receiving emergency treatment at St. Elizabeth's hospital.

Booked on a ROW charge was Jerry D. Thiessen, 29, of 2406 Edwards street, who was driving north on August and struck the eastbound auto of George O. Riley, 37, of 1738 Poplar street, which was heading east on 24th street.

Passengers in the Riley auto who were treated and released, included Mrs. Marie Riley, 37, of the Poplar street address, and Lawrence White, 20, of 3108 Kirkpatrick Homes. Both women had x-rays taken of the left knee.

3-Car Accident

An accident at 23rd street and Madison avenue at 6:45 p.m. Tuesday resulted in damage to three cars and the driver of one having sutures taken at the hospital for a scalp laceration.

Edward J. Wilson Jr., 22, of Glen Carleton told Granite City police, that while making a left turn from Madison avenue he was struck at the right rear by an auto operated by Martha Wylie, 16, of 2536 East 25th street.

The impact caused Wilson's car to spin around and collide with the auto of Cheryl L. Humphreys, 28, of 2556 Lynch avenue, which was halted for a signal light on 23rd street. The three vehicles were occupied by a total of 11 persons. Only Wylie required emergency treatment.

Sheila Teator, 19, of 2043 Sixth street, Madison, was injured Tuesday morning when her auto was involved in an accident on Cambridge avenue south of Madison. She was treated at St. Elizabeth's hospital for abrasions to the left knee and neck pains and was released following x-rays.

18 Angela Drive Residents Seek Aid to Get Water

Nameoki township officials have been asked to intervene in determining the responsible party for extending water lines into a portion of a new subdivision, which is preventing 18 residences receiving water service.

Residents of the 2700 block of Angela drive told the town board Tuesday evening that absence of specific information regarding installation of water lines and a lack of cooperation from the subdivision developer is causing several homeowners to seriously consider selling their property.

All the homes are located from a point midway in the 2600 block through the 2700 block of Angela drive and were constructed within the past 2½ years.

Mrs. Edgar Votaw, 2705 Angela drive, said numerous efforts have been made to determine which water district has responsibility for installing the lines. "At first we were told it was the Mitchell district, but later advised that Ponton Beach water district has jurisdiction here."

"What information we have managed to get, points to our property being located in the Ponton Beach district, which apparently has not sufficient funds to extend lines into the area," Mrs. Votaw said.

She pointed out that East St. Louis & Interurban Water Co. provides water service midway in the 2600 block and has indicated a willingness to extend its lines to homes without service, if Ponton Beach district will relinquish its rights.

Mrs. Votaw told the Press-Record that she and other homeowners were under the impression that water lines were to be extended when they purchased the homes. The Votaw family have resided on Angela drive since November 1965.

The spokesman also asked if a subdivision is required to provide ingress and egress into an area, noting should a fire or other emergency block the

street, no alternate route was available to enter or leave the area.

Nameoki Township Supervisor Harry Briggs informed the delegation he would bring the two problems to the attention of the county board of supervisors. He also offered to discuss possible legal recourse with Township Atty. Nick Vasiloff.

In other action Tuesday, Supervisor Briggs reported the Illinois attorney general has declined to participate in the quo warranto suit filed by the township against Granite City's annexation of Maryville school property. He said an opinion from the state's attorney has not yet been received.

H i g h w a y Commissioner Charles Hanks said the owners of 23 junked autos parked along township roads have been notified to move the vehicles or face court action.

Hanks also asked what procedures must be taken to start a landfill operation. "Township residents are really hurting for a place to dump trash," he commented.

Briggs explained it would be necessary to find a suitable site to comply with stringent requirements and suggested the township defer action until results of a county-wide waste disposal survey are known.

The supervisor added that the survey report being compiled by a St. Louis engineering firm is due in June. "I believe consideration of this report will give us more of a basis to go on in providing the right type of facility for the township," Briggs said.

Council Oks MFT Engineer Contract Signing Resolution

Status of engineering contracts for the city of Granite City still remained in doubt in many aldermen's minds Monday night, even though a resolution was adopted authorizing Alderman Ford Johnson as Street commission chairman to sign all documents pertaining to motor fuel tax work.

The doubt is over whether the checks to pay for the engineering will be signed. Johnson said his committee and the mayor met last Friday evening and that he felt progress had been made toward an agreement on the renewal of contracts with Research Planning & Design Association.

Contract approval of the contracts dates back to Jan. 15 for the present year, but the mayor has declined to sign them, stating he was dissatisfied with the firm and that he felt an excessive amount already has been spent on the engineering for the MFT Johnson road improvement.

Plan TV Series to Aid In Learning German

"German Fairy Tales," a new series of 13 half-hour television series, will be telecast at 4:45 p.m. and 7 p.m., beginning tomorrow, on public television station Kete, Channel 9.

It is a series of classic international fairy tales dramatized in German. While some of the stories will be familiar to viewers, others will be new. But all will have the universal fairy tale appeal.

Ohio educational television station WOSU-TV and the Ohio State University German Department are cooperating in the production of this experimental German series, based on the principle that if one wants to learn a language, he must get as much exposure to the language as possible.

The 13-week series serves not only as a study of the German language, but as a supplement to the study of children's literature, dramatizing tales from Rumania, Portugal, Italy, Poland, India, Turkey, Estonia, Japan, Germany, Finland, Denmark, Austria and France. An outline of the series beginning March 22 is available through the KETE Membership Services Department, telephone 863-0995.

Go Along With 35%
"I'd go along with payment of 35% of the engineering fees for that project, since we've already paid 65%," the mayor stated. He had earlier explained that another engineering firm had been paid for planning that section of the improvement several years ago and that only revisions are needed.

Johnson has urged the contract signing to get the plan-ning done by early April so that the motor fuel tax project can be carried out this year.

"We know," he said Monday night, "that we have MFT funds only to cover this project this year." He again urged the mayor to sign the contract.

The mayor suggested he proceed with reading the resolution on which action was delayed for two weeks ago.

Johnson presented the resolution for final passage, and the vote was 13-to-3 to give John-

son authority to sign the MFT contract with the St. Louis firm.

State Requirement
In the resolution, it is pointed out that the state highway department will not allocate motor fuel tax funds until proper contract documents are signed, and that Johnson is authorized to sign the proper papers, documents, etc."

Voting for the resolution were Aldermen Dallas, Moerlen, Bartosiek, Whitmer, Boyd, Poules, Green, Bassarich, Noll, Parmley, Robertson, Dawes and Johnson. Opposed were Rutledge, Fry and Jarrett.

Again Johnson asked the mayor if he would sign the contracts.

"There's no point in discussing it further," Partney replied.

Johnson then asked specifically about the renewal of the city consulting engineer contract with the same firm.

"It's the same as the other,"

Partney answered.

Alderman Bartosiek asked if the council should select another engineer for pending city projects other than MFT work.

"I would suggest you do," was the mayor's answer.

No Action on Allowance

No action was taken on a letter received from the Illinois Municipal League regarding the tie vote two weeks ago on the ordinance to increase the mayor's annual expense allowance from \$1500 to \$3600.

The mayor declined to vote and break the tie.

The legal staff of the IML said it was not out of line for the mayor to vote in such a case since he is entitled to have his expenses paid, but that it was not believed the mayor could be forced to vote since all elected officials can abstain.

The letter was placed on file. Three weeks ago approval of the mayor's allowance was declined as his \$1500 limit had been exceeded.

petition for a use permit to build a professional office building at 1701 Ponton road across from the Nameoki school. The lot now is an R-1 single-family dwelling district.

The petition was filed by V. M. Spaulding, Daniel and D. Frances Daniel and Dr. Al Trian for commercial zoning and a use permit. The plan commission at first rejected the petition on grounds the rezoning would constitute "spot" zoning. Dr. Trian and John Sobol later produced affidavits signed by residents in the area declaring they had no objection to the building.

The amendment was ordered after it was noted that the present special use permit ordinance permits professional offices only on four-lane thoroughfares.

Objection to a rezoning request by Donald Adams for a business classification for property at 1747-48 State street developed during the meeting, but the request was approved with Aldermen Noll and Bartosiek voting no. The council ordered an ordinance approving the rezoning from R-5 multiple zoning be prepared.

by the council before rejecting it entirely.

Joining in the discussion, Alderman Green said he agreed with Noll. Green said he has a number of friends living in the area who are retired and on pension and would never be able to pay off debts if they had to sell their homes and buy others.

Whitmer stated he would never support Urban Renewal.

Alderman Rutledge cautioned council members that credits toward the Urban Renewal grant would be running out.

He explained that when the city spent \$200 to hire a planner it was known the renewal area would be small, but that it would be expanded. He called for assistance from the Chamber of Commerce committee in determining the exact amount of credit the city still has toward the grant. Fry also called for such assistance.

Madison to Assist In EOC Program Set This Summer

The Madison city council agreed Tuesday night to co-operate with a neighborhood improvement and beautification program to be conducted by the Madison County Economic Opportunity Commission.

Maurice S. Harris, county EOC director, informed the council that federal funds will be available to employ youths, and five-man crews working in Madison are to be supervised by the superintendent of streets. They will work a 40-hour week.

According to Mayor Stephen Maeras, the city will insist that projects within the city limits be conducted first, and the city then would offer its assistance for work in neighboring unincorporated areas and in North Venice.

Award Contract

During the meeting, the council awarded a contract to G. H. Sternberg & Co. for removal and replacement of sidewalks, curbs and gutters and driveways during the season as a low bid of \$27,985.

The motor fuel tax contract was authorized by the state when bids were opened Tuesday afternoon.

Other bids were \$38,671 by General Contracting Co. and \$39,500 by A. H. Seebold & Co. The engineer's estimate, made a year ago, was \$26,000.

Study Urban Renewal

The city is considering an urban renewal program, and Mayor Maeras said he has asked the assistance of the regional office of the Housing and Urban Development Department in Chicago in preparing a program.

He has invited a representative to meet with the city council to detail the requirements. Complaints have been received that laundromats are not being properly cleaned, the mayor said.

He also said the city is asking the cooperation of restaurant operators in eliminating fire hazards by cleaning grease out of their exhaust hoods.

Anti-Rabies Shots

The cost for anti-rabies shots this spring has been increased, 50 cents to \$3 for dogs and cats at clinics to be held in Madison and Venice. The increase is due to higher vaccine costs. Individual office calls are \$4.

The clinics will be held from 2:30 p.m. to 4 p.m. April 6 at Venice, April 13 at Madison, April 27 at Venice and May 4 at Madison. The shots are required before issuance of city licenses.

The First National Bank in Madison has been ordered by Pete Skundrich, building inspector, to raze a building at 1413 Fourth street as a fire hazard.

The council authorized Veterans of Foreign Wars Post 1300 to sell "buddy poppies" along Madison avenue on May 24-25.

GC Jaycees Announce '68 Homecoming Plans

Preliminary plans for the Granite City Jaycees' annual homecoming celebration were announced today by James Jeffries, chapter president, who said the four-day event will be staged June 20-23 at the Nametok Village shopping center.

Jeffries reported this year's homecoming parade, scheduled for Thursday, June 20, will have as its theme, "Americanism." He noted the early announcement enables local organizations interested in participating in the parade or securing concession stand space to make arrangements well in advance of the date.

The Jaycee president also announced the appointment of Douglas Elliott as general homecoming chairman, with Richard Dowdy as parade coordinator and Dr. Robert Schmidt in charge of concession stands.

Local groups wishing to register or acquire additional information about the parade may contact Dowdy at 876-9176, while reservations for concession space can be made by calling Dr. Schmidt, at 876-3854, Jeffries said.

2 County Scholarships

Winners of general county scholarships in Madison county have been reported by the County Scholarship Committee of Illinois to Wilbur R. L. Trimpe, county superintendent of schools, who accepted applications for the scholarships last December. Two four-year scholarships to state universities, awarded on the basis of scores made on examinations given in May, August and October 1967, will go to Kay Elaine Blash and Peter James Bradbury, both of Edwardsville.

U. of I. Mother Group Plans May Events

Current membership in the University of Illinois Mothers Association totals 6097, according to Mrs. Lucille Caban, Madison county chairman, who said membership figures were released at a recent executive board meeting in Champaign. The association plans for the U. of I.'s "Moms Weekend" May 3, 4 and 5, to be held in conjunction with the association's 46th annual meeting and presentation of the Medallion of Honor Award.

Events for the three-day affair include a "Continental Breakfast" when university administrators, faculty and staff members meet informally with the Illinois "moms," and performances of the spring musical, "Sweet Charity," presented by the student body. Additional activities will be announced later, Mrs. Caban said.

She reminded local mothers planning to attend to make reservations for lodging and secure tickets for the events as quickly as possible.

Other business transacted at the board meeting, dealt with presentation of Book Awards. The association project involves awarding of significant books to the hometown high school of U. of I. freshmen who achieve a 5-point academic record during his or her first semester.

A total of 87 Book Awards will be made this spring, including four awards in Madison county, Mrs. Caban reported. Names of the winning students will be announced in May.

State Historical Society Meetings for Teenagers

About 2500 history-minded teenagers are expected to attend four all-day Saturday meetings to be sponsored over the state by the Illinois State Historical Society. The programs will be directed by Mrs. Olive S. Foster, editor of the "teenagers" magazine, "Illinois History," and supervisor of the historical society's school services.

The meetings are scheduled for March 30 in Belleville high school for students in the 36 southernmost counties of the state; April 27 in Alton high school for those in the northwestern 13 counties; May 4 in West View high school, Kankakee, for the northeastern 11 counties; May 11 for the 42 central Illinois counties.

County Landfill Law Amended To Gain More Room

An amendment to the Madison county sanitation ordinance approved by the county board of supervisors Wednesday morning will open the way for additional landfill operations in the county.

Potential operators who hold mortgaged property valued at \$15,000 may now obtain landfill licenses from the county and bonds from bonding companies if the operator provides an appropriate appraisal.

Carl Buehler, assistant supervisor of Granite City township and sanitation committee chairman who presented the amendment, said that bonding companies would not provide the bonds without the amendment.

Jack Clifford, sanitation officer, said after the meeting that he knows of two prospective operators from the northern parts of the county who can now qualify. They must maintain all other landfill requirements to retain a county license.

Cities Exempt from Reporting Bond Debt

Illinois legislation that requires the state treasurer to publish a report on the "revenue bonded indebtedness of the state" does not apply to local governmental bodies and municipalities, but does apply to corporations, instrumentalities and agencies acting for the State of Illinois which issue revenue bonds, according to a ruling by Illinois Attorney General William G. Clark.

The law therefore would apply in this area to the Bi-State Development Agency and to the Tri-City Regional Port district, both of which are created by state directives and which are authorized to issue revenue bonds.

Clark delivered the opinion to State Treasurer Adlai E. Stevenson III to clarify the legislative requirement.

Clark also handed down an opinion that a recorder of deeds or a registrar of deeds can refuse to record a deed presented to him for recording unless it is accompanied by a declaration showing the full consideration for the property transferred. An opinion on the issue was requested by State's Attorney Max B. Stewart of Hancock county.

Seven Fined \$300-\$400 For Illegal Dumping

Seven Madison county residents, including a Granite Cityan, were fined \$300 to \$400 each Monday afternoon by Magistrate Joseph Kelleher at Edwardsville for dumping trash and refuse along roads.

The magistrate stayed all but \$25 of the fines, however, on condition that the persons clean up the debris within 30 days. Most of the illegal dumping occurred in Foster and Jarvis townships, leading to a crackdown by the county sanitation department.

The local resident was Kenneth J. Jaroszewicz, 242 Pine street, who pleaded guilty.

Six of the seven entered guilty pleas and the other was found guilty after a brief hearing. Charges against four women were dismissed, and several cases were continued at the request of attorneys. One defendant failed to appear.

Photographs showing illegal dump sites were presented in court by Paul Hawkins, county sanitation inspector. Items left in the refuse were used to identify the violators.

Keith Darnier, Kirk Darnier, Carl Earls, Robert Epping, Stephen Ebrecht, Michael Few, Randy Fowler, Stephen Hileman, Dale Jones, James Naeve, Albert Nour, John Tolbert, David Watkins and William Watson, accompanied by advisors, Charles Meyer and Gilbert Watson.

It was announced the Almad Temple will host "DeMolay Day" for the Southern Jurisdiction on May 25. The next district meeting will be May 8 in Edwardsville.

Ban On Self-Incrimination Traced

(Tri-City and Illinois Bar Associations)
An analysis of the Fifth Amendment to the U. S. Constitution, upon which many recent decisions of the U. S. Supreme Court have been based, may be found in a 100-page booklet published by the Illinois State Bar Association.

The booklet, entitled "Your Bill of Rights," offers a discussion by attorneys of the 23 basic rights of citizens. The Bill of Rights, the first 10 amendments to the Constitution.

It may be obtained without charge by request to the Illinois Bar Center, Springfield, Ill. 62701.

The attorney-author of the chapter entitled "Amendment V—Self Incrimination," points out that this rule of law was developed in ancient England before it became part of the Bill of Rights. He observes:

"The historical source of the very words of the Fifth Amendment may be found in the ancient phrase 'no man is bound to accuse himself' which developed as a rule of law in England in the 1600s.

"Initially, this rule appears to have grown up as a reaction to the practices of the ecclesiastical courts and the court of the Star Chamber, whereby an accused might be put on oath, and then questioned generally about any subject.

"Thus, the accused might be faced with the choice of perjury himself or of becoming the pool of his own indictment or conviction if he ever had done anything suspicious."

The Fifth Amendment provides that no person "...

shall be compelled in any criminal case to be a witness against himself."

One of the most recent decisions of the U. S. Supreme Court, the National Firearms Act passed by Congress in 1934 shortly after an attempt on the life of President Franklin Roosevelt.

The act required owners of sawed-off shotguns, machine guns, and other weapons to register these arms with the government.

It was deemed to enable the government to keep track of such guns in the event they should fall into the hands of the criminal element.

Under the registration law, the high court held that the individual who registered such weapons as were specified in increased his chances of prosecution in a self-incriminating way.

In delivering the majority opinion, Justice Harlan stated there was a high correlation between the obligation to register and the possibility of prosecution.

Eight members of the Court concurred, with only Chief Justice Warren dissenting.

The act was challenged by Miles Edward Hayes of Dallas, who had been sentenced to four years in prison for the possession of an unregistered shotgun.

Unlike the federal law, which required registration of certain specified firearms, a new Illinois law calls for registration of firearm owners, without regard to the type of gun owned.

The state law becomes effective July 1, 1968.

Label Aids Processing of Returns

(Internal Revenue Service)

Q. I made a mistake in filling out the pre-addressed Form 1040 I got in the mail. What should I do?

A. The label on your form may be peeled off and put on another Form 1040. Use of this label will help avoid mistakes or delays in processing your return since it contains the information needed to identify your tax account.

Copies of tax forms are available at most banks and post offices as well as local offices of the IRS.

Q. How does the retirement income credit work? Does it reduce your income or the tax you owe?

A. The retirement income credit is a credit against your income tax. Taxpayers qualified to claim this credit can reduce their tax by up to 15% of their "retirement income." Use Schedule B, Form 1040, to claim this credit.

Further details on this credit are contained in the booklet, "Retirement Income and Credit." Document No. 5018. Send a postcard to your District Director for a free copy.

Q. I still have not received one of my W-2's from an employer. Can I file without it?

A. W-2 forms from all employers should be attached to your return to avoid delays in processing.

Ask your former employer about it, since he is required by law to give W-2 statements to his former employees by the 15th day of the last payment of

wages.

Q. I am itemizing my deductions. Should I send in my expense records when I file?

A. No, do not send in records with the return.

If your return is selected for audit, then you may be required to either send or bring them in.

Note that for some deductions or exclusions, schedules or supplementary forms must be filled in and attached to the Form 1040.

Check your 1040 instructions carefully before you file.

Q. Does interest from a savings account have to be reported as income if it's under \$100?

A. Yes, this interest income must be reported if you are required to file a return.

Q. How should I figure my deduction for state gasoline tax?

A. On page 9 of the 1040 instructions, the law states you can use. It is based on the state tax rate and the mileage driven.

Q. Are the dividends on GI life insurance taxable?

A. No, they are not. Dividends on other insurance policies are not taxable, either, when they represent a return of premiums paid.

Q. Can a single person use the head of household tax rates?

A. Yes, if he furnished over half the cost of maintaining a home for a dependent relative or his unmarried child, grandchild or stepchild. Details on this can be found on page 3 of the 1040 instructions.

Election Outlook Changing Because Both Doves, Hawks Believe War Must End Soon

The nearly unprecedented proliferation of presidential candidacies reflects the troubled times—and growing public awareness that continuation of present policies may not bring marked improvement in the near or even distant future.

Those who despair over the extent of pre-candidate debate should be comforted by the fact that this country has repeatedly showed its ability to retain or change leadership by ballots rather than by force—a quality unfortunately absent in governments having jurisdiction over most of the population.

What is of greater concern as the first quarter of 1968 nears an end is that more is at stake than merely presidential aspirations or even the issue of unity during an unpopular war.

The discussion in essence is whether the status quo or a gradual expansion of Vietnam fighting will permit the U. S. to survive; in addition to the tragic loss of life, few if any authorities deny that America is "painting itself into a corner" financially.

Both "doves" and "hawks" agree on the importance of an early end to the conflict; they differ only over the way this can or should be achieved.

At the outer extremes of these two viewpoints are callous abandonment of South Vietnam to Communist terrorism or resort to adequate force to win promptly without regard to whether this launches world war III and the destruction of mankind.

As long as the incumbent administration can polarize the alternatives, limiting them to existing procedures or the lunatic fringes of peace and war advocacy, re-election in November seems assured. But there surely are more than these three options, and fewer people are willing to wear the blinders that restrict them to the three.

Just as "victory" and "progress toward victory" have somewhat hard to define in this case, it cannot be absolutely proven that we are stalemated in Vietnam. But provision of increasingly sophisticated weapons to our foes enables Russia and China to win and wait as the struggle becomes more and more costly to the U. S. while costing the suppliers no lives and only a relatively minor monetary drain.

Caution remains against any confrontation related so closely to the survival of civilization. But Americans' proper interest in national survival suggests some type of frank dialogue in which we make clear our unwillingness to continue following limited-war rules that are obviously favoring the other side.

Alley fighters always win against a Marquis of Queensbury opponent with a boxing glove on one hand and a knife behind his back.

The flower of our young manhood is being sacrificed in just such an uneven fight—including our future scientists, educators and philosophers, judging from latest draft regulations.

There have been 15 Quad-City war dead already.

Communists are said to be willing to wait 20 years if necessary to capture South Vietnam. Present trends indicate the U. S. cannot wait that long to drive them out. Voters may well decide that the "time for a change" is this year.

Q. I am 59 and will retire on a modest annuity in a couple of years. I have 400 common shares of Standard.

Jerry and I am continuing to buy more on a monthly purchase plan. I don't own any other stock and have no plans to buy any other.

Is this a good investment as a hedge against inflation, is it conservative enough for a person in my position, and should I consider buying some other stocks instead of putting everything in one firm?

A. In the last 10 years, the gross income of Standard of Oil has just about doubled while earnings have gone up 30%.

In other words, earnings growth has not kept pace with sales growth. There have been some good reasons for this and, in the longer term, earnings should catch up with total sales.

However, the company is one of the biggest and finest in which you can invest money.

It does more than half of its business outside the United States, and consequently, is

diversified.

The only negative factor I see in your case is that you have all your eggs in one basket. And good as that may be, I think you should hunt for a little diversification.

I'm not suggesting you wait until that time, but whenever you see the opportunity to switch into some utility or industrial stock, you can buy at a reasonable price and give you approximately the same yield, I'd make the change.

CHOUTEAU VOICES HEARD

—WHY NOT U. S., TOO?

To the Editor:

I would like to thank the voters of the Chouteau area for the splendid turnout in our election Feb. 26.

The people voiced their opinion by the ballot, showing they were not ready for a village.

I would also like to say to all voters that this November is a national election, when we will vote for the people who are going to make the laws and living standards for us.

If the whole nation bands together as the people did in this small election, then our voices can be heard on this ballot, also.

Ask your candidates over, ask them questions by mail, listen to their platform and then vote for the man who has the most people vote for the party.

We have representatives, congressmen, and U. S. Senators, representing us in Illinois. If you have any questions to ask them, suggestions for them, or criticism about them, write them. They don't know how we feel unless we tell them.

Write them about what you want or think they should do. I have done so and I received an answer. I am sure you will, too.

You young folks who can't vote as yet are also represented.

Dr. Voight to Retire As McKendree Prexy

Dr. Edwin E. Voight announced today that he will retire July 15 after serving four years as president of McKendree College, Lebanon, Mo. His successor was immediately named, but a presidential election committee is interviewing candidates for the post. Dr. Voight's tenure at McKendree has been marked by the "McKendree Renaissance," a time when the college moved into the 15th decade of its history with a \$16 million program for growth and development. Dr. Voight fulfilled a three-point program to increase enrollment and student services, to improve and enlarge the faculty and to expand the campus.

50 Civics Students At Council Meeting

Monday night's Granite City council session was attended by about 50 Granite City high school students Monday night, accompanied by their teacher, Albert Lewis.

Lewis, a civics instructor, follows the custom twice a year in having civics classes attend council sessions to get first hand information on city government.

The students and Lewis were welcomed by Mayor Partney, who commented that he was pleased to see the council meeting so well attended. Also in the audience was a delegation of Tri-Cities Chamber of Commerce officials of the Long Beach Planning committee, headed by C. E. Townsend, who expressed interest in Urban Renewal.

Latin Conference Set At U. of Illinois

Illinois high school pupils will need not go to Italy to do as the Romans do. Instead, they can enroll in the third annual High School Latin Conference June 23-28 at the University of Illinois.

The conference is open to Illinois high school students who will have completed two years of high school Latin by June, 1968, and who are recommended by their Latin teachers. Because of space limitations, maximum enrollment is 70.

College Men Support Troops in S. Vietnam

One group of college men has decided to take steps to counteract some of the unfavorable publicity college students have received concerning recent protests of the war in Vietnam. "You and I know the average college student doesn't have 'long hair' and sponsor 'sit-ins,' but the general public doesn't," wrote G. Keith Phoenix, past Southern Illinois University chapter president, in a letter to each of Delta Chi Fraternity's other chapters and colonies.

Phoenix recently initiated a nation-wide project in which the individual members of the fraternity are asked to write letters to servicemen in Vietnam.

"Delta Chi can help to replace this unpopular image with a more favorable impression," Phoenix wrote. "It is not a question of being for or against the war; it's a question of supporting our men in Vietnam. 'If you know someone over there now, write to him, if not, write to someone you don't know, wish him good luck, and tell him you hope he returns home soon,' Phoenix said in the letter.

The letters are now being collected from the various chapters. Phoenix estimated from the responses he has received that more than 1000 letters will be collected and mailed.

Baldwin to Teach at Southern Illinois U.

Carl R. Baldwin, assistant city editor and director of training for the St. Louis Post-Dispatch, will serve as a visiting professor of journalism at Southern Illinois University, Carbondale, during the spring term which begins Monday.

The veteran newsman has been member of the Post-Dispatch staff since 1931. Among his reportorial achievements have been the uncovering in 1951 of labor racketeering in the greater St. Louis area that resulted in three federal grand jury investigations and the subsequent conviction and imprisonment of 40 persons.

Baldwin's appearance at SIU will not be his first on campus. For six years he has been on the program for the spring conference of the Southern Illinois School Press Association as a member of the St. Louis chapter of Sigma Delta Chi journalistic society. Council Stalls Proposal For 2-Way Edison Avenue

Action on an amendment ordinance to permit two-way traffic in the 1800 and 1900 blocks of Edison avenue was deferred Monday night's city council meeting. The deferral requests were made by Aldermen Whitmer and Poulos, delaying possible approval of the amendment for a week. Whitmer said he had counted 10 driveways in the 1900 block of Edison avenue and believed that left and right hand turns from these alleyways, parking lots and drive-up bank windows would cause considerable confusion. Alderman Nonn presented the amendment, which had been placed on first reading

two weeks ago and urged its approval on a trial basis. There was no debate after the deferral motions.

State St. Rejected

Voted down by the council was another amendment to the one-way traffic ordinance to restore two-way traffic to the half-block of State street between Niedringhaus avenue and State street. It had been proposed by Alderman Daves, who said he felt two-way traffic in the short block would benefit most Quad-Cityans. The issue was debated for several minutes. Alderman Poulos commented that confusion in the block has ended, and now it will be started again. Other aldermen added that they had received only few complaints, but Nonn pointed out that there had been numerous arrests of violators in the block and that a number of motorists objected to the inconvenience.

Support of the one-way street was voiced by Alderman Bartosik, who said it benefits children attending St. Joseph's parochial school and using the 21st and State streets crosswalks. The vote for suspension of rules was an 8-to-8 tie, and when submitted for first reading, the proposal lost by a vote of 7-to-9. On the first reading vote, those favoring the change were Dallis, Basarich, Nonn, Fry, Parmley, Jarrett and Daves. Opposed were Moerlen, Bartosik, Whitmer, Boyd, Poulos, Green, Rutledge, Robertson and Johnson. Green had changed his vote.

No-Parking Zones
An ordinance was adopted to establish no-parking zones on 22nd street and 28th street. On 22nd street, parking is to be prohibited on the north side from Adams street west to the railroad tracks and on 28th street from Iowa street for 100 feet from the southwest corner and 75 feet from the northwest corner.

Four roll call votes were needed to place a stop sign in the 2400 block alley between Delmar and Edison avenues at 25th street. As first presented and adopted, the sign would have stopped traffic on 25th street at the alley. The ordinance was amended to place the sign at the alley exit. Alderman Poulos said the paved alley is being used as a raceway.

Alderman Johnson called for preparation of a no-parking ordinance on Lynch avenue from the west line of property at 2617 Lynch east to the end of the street.

Presley Attends Tulsa Nat'l Jaycee Workshop

Boyd Presley, Granite City Jaycee board chairman and Illinois Jaycee state vice-president, departed yesterday for Tulsa, Okla., where he will attend a four-day training workshop and conference at the Jaycees' national headquarters.

The local man is considered to be the front running candidate for the office of regional director to the national Jaycee board. An election will be held April 6 at Highland. Nine regional directors, formerly called national directors, are elected annually from Illinois.

At a state board meeting held two weeks ago at Lombard, Ill., Presley was rated the top vice-president in the state, the local chapter learned. During the Tulsa conference, a presentation submitted by the Granite City chapter, relating to the Illinois Jaycees "Junior Sports Jambores," hosted here in June 1966, will be considered for nation-wide recognition.

The pictorial record which details procedures taken by the chapter in organizing and successfully implementing the sports program, in which nearly 1000 children participated, earlier was voted the most outstanding Jaycee project within the region and state.

The presentation which records budgeting, manpower utilization and press coverage information, also was judged exceptional at the national Jaycee convention at Baltimore, Md., last year and referred to

City Costs Rise, But Tax Burden Is Shifting

Municipal government costs in Illinois are rising, but more of the financial burden is shifting from property taxes to other forms of revenue, according to a study prepared by Michael J. Howlett, Illinois State Auditor of Public Accounts.

Howlett has begun distribution of a 1966 statewide summary of municipal finance in Illinois, detailing revenue and expenditure figures for 1247 Illinois municipalities for fiscal years ended in 1966.

The summary shows property taxes still are a leading source of income for municipalities, representing almost half of the total revenue. But a comparison of the summary with that made for the 1965 year shows the property tax is not rising as rapidly as the total revenue.

Property taxes made up 45.6 cents of the revenue dollar in Illinois municipalities during the 1965 year, the survey indicates, but in 1966 the property tax share dropped to 43.95 cents.

Howlett said special licenses, wheel taxes and fines are taking over more of the municipal financial burden. These accounted, he said, for 13.66 percent of all revenues in fiscal 1966, compared to 11.69% in 1965. The sales tax share rose during the period from 19.52 to 20.1%.

The Municipal Audit law enacted in 1953 requires municipalities to be audited regularly by licensed public accountants. The audit reports are filed in Howlett's office.

WHEN YOU THINK OF FIRE YOU THINK OF WATER

When you think of fire you think of water. Think of water and you think of the water company. Because it's our job to provide the water for fighting the fire. The water system, in fact, is designed with fire protection in mind. If fire were not an ever-present threat to the community, the capacity and cost of the water system could be considerably less than it is. But of course we have no choice. When fire strikes the water must be available, in sufficient quantity, to fight it.

\$8000 Archaeological Salvage Grants for SIU

Grants totaling \$8000 have been authorized by the National Parks Service to Southern Illinois University's Museum, Carbondale, for two archaeological salvage projects in southern Illinois during the coming summer, according to Philip Weigand, the Museum's curator of North American archaeology.

Three-fourths of the funds will be used along the lower Kaskaskia River channelization project, between the confluence with the Mississippi and up to the New Athens area. This phase of the work will involve aerial photographs, completion of the ground survey and continued excavation at two sites near New Athens which are to be destroyed. Weigand said, Carl Kuttruff, Museum field archaeologist, will act as foreman.

The other \$2000 will permit the finishing of work in the Rend Lake Reservoir area. Field archaeologist Sidney Denny and his crew will excavate at one site and will re-surveys a section in which a substantial quantity of Mississippian culture pottery remains. This will be the fourth and last year for salvage work in this area.

Laboratory work on archaeological materials salvaged in both areas will be conducted next year, with Kuttruff and Denny each cataloging and analyzing their own finds, Weigand said.

'Mission: Possible' Planned at SIU

Color coded name tags—red, yellow, blue and orange—will direct high school and junior college students to their "missions" when they visit Southern Illinois University-Carbondale campus March 30 to investigate possible home economics careers.

Theme of the annual Home Economics Guest Day, which usually draws 1500 to 1800 teenagers, is "Mission: Possible," and each of the four departments in the School of Home Economics will set up shop in a different campus auditorium. Each color-coded group of several hundred visitors will be escorted to each auditorium on a rotating schedule, for a 45-minute program of specific information from SIU students about that department's program.

Another 45-minute time slot is scheduled for each group at the Home Economics Building, where faculty members and more home economics students will answer questions and explain exhibits, and where a slide series on how the University's growth will be shown.

Student committees in each department have chosen special names for their presentations or career opportunities, such as "Your Mission—Food and Nutrition."

While planned for high school and junior high school students, the event also is open to all interested SIU students.

Apartments, Pool To Be Built over Sewer Trunk Line

Construction of apartment buildings over a Namekoi sanitary sewer line on the Maryland Manor site being developed by Robert Swiatek at Pontoon road and Wabash avenue was approved Monday night by Granite City council members.

The sewer lines are to be enclosed in six inches of concrete and the apartment foundations and also a swimming pool are to be designed for minimum loads on the lines.

The proposal was submitted to the council by the developer, and Alderman Johnson commented that he did not believe the city had obtained easements to put the lines across the property when the sewers were installed several years ago. He called for a study to determine the engineering and the authorization.

Mayor Partney said he had searched for the easement papers and was unable to find them. He added that the work was done by the East Side Levee & Sanitary District since that agency installed trunk lines for the Namekoi area sanitary sewer system. "The easements probably are at the levee district office," he added.

TRRA to Repair Crossings When Weather Permits

Granite City was notified Monday night in a letter from the Terminal Railroad Association that repairs to the railroad's crossings throughout the city will be started "with the moderation of temperatures."

Council members, who for the past several sessions have attacked the railroad for the deplorable conditions at crossings, continue to assail them. "Just last week a motorist told me he hit a hole on the 20th street crossing and blew a tire on his car," Alderman Green commented.

Street Supt. Warfield reported that he met with officials of GM&O Railroad and inspected their crossings. "They weren't in such bad shape," Warfield said.

"They're all right," Alderman Pooler remarked, "and they keep getting worse."

No Action by Council

No further action was taken by the council.

In other business during Monday night's meeting, the council approved the ordinance setting forth paying agents for the \$1,855,000 general obligation bonds issued for storm water drainage lines, designating the purchaser, Mercantile Trust Co., St. Louis, and the Granite City National Bank.

The ordinance is an amendment to the original ordinance adopted Jan. 2 authorizing the bond issue, and it sets forth the 5 1/2% interest rates and the tax levies to be made through 1986.

Authorization was given for revisions to the city's air pollution control law as recommended by the city's technical secretary, Prof. Erwin Hoelscher. City Atty Allen was directed "to put the ordinance in proper form."

The attorney also is to prepare papers to let the city let the old quonset hut project in Lincoln Place to Erwin Keunehoff for \$1100—the purchase price.

GC Town Tax Cut 4.9 Cents Due to Low Relief Levy

The tax rate which will be extended for the 1967 year for Granite City township has been fixed at 6.3 cents per \$100 assessed valuation, a drop of 4.9 cents below that of the 1966 rate of 11.2 cents, according to a notice sent to Town Clerk Homer Pendleton by County Clerk Eula Holtz.

Actually the township cut its 1967 rate for general assistance by 5.36 cents per \$100 assessed valuation, but part of this reduction was absorbed by slight increases in the rate for the town fund and for Illinois Municipal Retirement fund.

The county clerk notified the township that the overall 6.3-cent rate includes 3.65 cents for the town fund, extended against a tax levy of \$58.360; a rate of 2.3 cents for general assistance extended against a \$36.888 levy; and a retirement fund rate of .35 of one cent extended against a levy of \$5500.

The town rate is up .44 of a cent over the 1966 rate of 12.21 cents extended against a levy of \$49.615. The general assistance rate of 2.36 cents for 1967 was extended against a levy of \$118.458. The new 1967 rate for municipal retirement of .35 of a cent compares to a 1966 rate of .33 of a cent.

The new tax rates were extended against a 1967 assessed valuation of \$168,702.14, while those last year were extended against a township assessment of \$162,398.36.

'Run-Over' Council Meeting Hears Contractor Appeal

A "run-over" meeting of the 3 1/4-hour Monday night Granite City council session failed to materialize at 8 p.m. Tuesday when only five aldermen appeared. A minimum of eight is needed to conduct business.

The carryover session was adjourned at 8:08 p.m. It was to have been held to complete unfinished business from Monday night. The adjournment Tuesday was to 8 p.m. next Monday, a regular meeting date, indicating the next session will pick up where this week's left off, with nine committee reports pending.

While no action was taken Tuesday night, the five aldermen and Mayor Partney did hear from a contractor to extend the bid opening date for the \$3,000,000 storm water drainage construction project for two weeks.

H. Sternberg, local contractor, told the council he believed the city would realize that if bidders are to have more time to go over the project area rather than submit unit price bids.

"It requires walking the job and counting trees and measuring to do close bidding, and with the April 1 deadline, there isn't too much time to do such detail work."

Alderman Bartosiak, chairman of the Special Sewer committee, was not present. Mayor Partney said he would confer with him on the possibility of changing the April 1 bid opening date to April 15.

City Clerk Homer "Call" Pendleton stated 10 general contractors and three sub-contractors have picked up bid specifications for the project.

These include G. H. Sternberg & Co., S. M. Wilson Co., A. H. Sebold Co., General Contracting Co., all of Granite City; Heimkamp Excavating Co. of Wood River; G. L. Tarrant Co., St. Louis; Nelson Construction Co., Clayton, Mo.; A. Sullivan, Inc., Metropolis, Ill.; New Memphis Sand & Gravel Co., New Memphis, Ill.; and Jack Finley Co., Springfield, Ill.

Supply firms with specifications are U. S. Steel Corp., St. Louis, for fencing; Thompson Culvert Co., Hazelwood, Mo.; and Nelson Concrete Culvert Co., Mt. Vernon, Ill.

Aldermen present Tuesday night were Moerlein, Green, Basarich, Fry and Johnson. Also present were Mayor Partney, Clerk Pendleton, City Atty.

JCs Plan 'Burger Day' To Benefit Playground

Purchase of playground equipment, the initial step in the proposed development of a recreational area for West Granite City, will be the objective of a "Burger Day" benefit event, set for Sunday, March 31.

James Jeffries, Jaycee president, today announced use of the Burger Chef facilities at 2642 Madison avenue will be donated to the local Jaycee chapter on March 31, with all proceeds derived from sales made during the day allocated to the playground fund.

Jerry Oxford, Burger Chef manager and a Granite City Jaycee, will coordinate the day's activities, noting that Jaycee members only will prepare, cook and serve patrons.

Clowns, several walking act tall acts, will distribute suckers and balloons to the younger customers, Oxford said. Jaycee volunteers will operate the "fast" line from 11 a.m. until midnight.

Plans for developing a playground site in the West Granite area have been a long-range project of the local Jaycee chapter since members acquired the former police firing range building, on the 1800 block of Poplar street, as a club house.

Four vacant lots adjacent to the concrete block structure were assigned to the organization by the city for improvement as a recreational area. Subject to city council approval, an additional unimproved tract, located on the same block, also may be available to the Jaycee chapter to develop into a soccer field and outdoor basketball court, a club spokesman said.

"We hope all Quad-Cityans will visit Burger Chef on March 31 to support our effort in a worthwhile cause," Jeffries commented.

Allen, Street Supt. Warfield and Robert Jackson, sewage treatment plant superintendent.

The membership chairman told the group Miss Annabel Zang's sixth grade room will take a trip to the Gateway Arch in St. Louis on March 28. Bud Fehrman, picnic chairman, said the annual school picnic is planned for May 15 at Wilson Park.

Miss Sue Smith, physical education teacher, presented the program, using students from the first, third and sixth grades to demonstrate skills and body control in ball handling. After the program, Reid announced that the Area PTA Council meeting March 28 at Mitchell school will have a panel discussion on "Wardrobes of Apathy." The panel members will include Mayor Don Partney, Rev. Paul Sims, Probationary Officer James Reidelberger, Assistant County School Supt. Harold E. Briggs and Police Chief Ronald Vieser.

Mrs. Reba Land's third grade room received the prize for the largest number of parents in attendance. Refreshments were served to 150 members and guests by second grade room mothers. The board will meet April 9 and the PTA meeting is set for April 16.

Expense Pay For CD Deputy

A resolution is to be prepared to provide a \$100-a-month expense allowance for David John, deputy Civil Defense director, in lieu of a \$100 monthly salary of which the federal government pays half.

Alderman Rutledge, chairman of the Granite City council's Civil Defense committee, reported to the council Monday night that John has not yet been certified for the post under federal regulations, since the state CD organization has been unable to provide the testing materials.

"He has held the post for over six months and has done an outstanding job. It's only because the state does not have the testing material that he has been unable to be certified," the chairman explained.

Under federal regulations, CD Director Victor Koenig and the deputy director are eligible for salaries, with half paid by the federal government.

In other CD action, Koenig was authorized to attend a federal CD meeting to be held in Springfield May 5-7 with \$98 allocated for expenses.

Benefits of New GI Bill Explained by VA Officer

Benefits of the new, or Third GI Bill, are not solely for Vietnam veterans, but apply equally to veterans who served in the Armed Forces any time after Jan. 31, 1955.

This was the cutoff date for Korean Conflict veterans who received major benefits under the Second GI Bill, John B. Naser, manager of the Veterans Administration's Regional Office in Chicago, explained today. To qualify, a veteran must have had at least 181 days active duty with any part coming after Jan. 31, 1955.

Benefits include: Educational assistance. Full-time payments for college type training range from \$130 a month for a single veteran to \$175 for a veteran with two dependents, with \$10 extra for each additional dependent.

High school. The same payments are available to a veteran while he completes high school without losing any GI Bill eligibility for advanced educational benefits.

Apprenticeship or other on-the-job training. Payments (based on six-month periods) begin at \$80 per month in the first period for a single veteran with added payments for veterans with dependents.

Farm cooperative training includes institutional courses. Payments range upwards from \$105 a month.

Vocational flight training. Payments cover 90% of the established charge for flight training for veterans who have the equivalent of a valid private pilot license.

GI loans. VA guarantees a portion of loans made through commercial lenders. On home loans the VA will guarantee up to \$7500 of the loan; on farm real estate loans up to \$4000, and on non-real estate farm loans up to \$2000. VA will make direct loans for homes in certain cases.

Medical care. VA provides hospital care for all veterans who served in the Armed Forces after Jan. 31, 1955, (whether their service is classified as wartime or peacetime) on the same basis as for veterans of earlier wars. Top priority goes to men needing treatment for service-connected or service-aggravated disabilities. If a bed is available, veterans may be admitted for any ailment requiring hospitalization if they are unable to pay for the treatment in a private hospital.

An allowance of \$1600 toward purchase of specially-equipped automobiles for veterans with certain severe disabilities suffered while in service.

In addition to VA benefits, veterans who served after Jan. 31, 1955, are also entitled to Civil Service preference in Federal employment and to job counseling and placement by the Department of Labor and State Employment Service Offices.

Pledges Improved Law On Workmen's Benefits

An effort to secure legislation increasing workmen's compensation benefits and which would bring a quicker decision on whether temporary compensation would be paid to a person who claims injury was pledged by Terryl W. Francis of Granite City, Democratic candidate for state representative of the 55th District, in addressing the Alton-Wood River Trades Council.

"The way the law is today, Francis said, "it is impossible for a person who has been injured to meet his obligations. "Actually there would be fewer injuries if workmen's compensation paid more, for industries would install more safety equipment and would watch closer to see that the equipment was being properly used. If it was responsible for higher benefits in the event of accident," Francis said.

He said Illinois was one of the last of the great industrial states of the nation to provide for adequate compensation to those injured.

Francis, a former aide to U. S. Sen. Paul Douglas has appeared before more than 600 labor organizations since entering the race for representative. He is one of eight candidates seeking two nominations on the Democratic ballot in the June 11 primary.

International Education Conference Set at SIU-SW

A high-ranking official of the Department of Health, Education and Welfare is among speakers scheduled for an international education conference Friday and Saturday, March 29-30, at the Southern Illinois University.

Shelton B. Granger, deputy assistant secretary for International Affairs, will give key addresses both days. He and Fredrika Tandler, of the U. S. Office of Education, are the primary consultants for the two-day program.

Sponsored by SIU's Division of Education, the meeting will convene at nearby Sunset Hill Holiday Inn Friday evening under the auspices of the teacher education and curriculum faculty headed by Francis Villmain.

Law Specifies Lights, Vehicle Turn Signals

A new state law that became effective Jan. 1 places strict requirements for tail lamps and directional lights on all trucks, regardless of size, according to the Brewer Motor Co., Illinois State Inspection Center for motor vehicles.

Inspectors said that every motor vehicle, including trailers and semi-trailers, must have two red lamps at the rear, one on the right and one on the left, and that license plates on the rear of the vehicle must be illuminated. If the license plate is illuminated by one or both of the tail lamps, a special light for the plate is not necessary.

Every vehicle also must have electric turn signals in the form of flashing lights on the front and rear, mounted at the same level. The front directional lamp may be white or amber but those at the rear must be red, the law states.

'Children in Trouble' to Be PTA Conference Topic

A conference on "Judicial Concern for Children in Trouble" will be conducted at the Alton high school cafeteria Thursday, April 4, under sponsorship of District 20, Illinois Congress of Parents and Teachers.

The conference is a follow-up for this area of one held in Chicago last November for state PTA leaders and representatives from each of the 36 districts.

District officials said that because children in court are children in trouble, and because children in trouble are everyone's concern, the conference will inform the public who these children are, why they are in trouble in the first place, how they are handled by the court and other agencies and what can be done to help them.

It was noted that statistics from the office of James Reidelberger, chief probation officer for Madison county, show more major crimes than any other age group and that it is

estimated that within the next decade, 40% of the juvenile population will have an arrest record of some kind.

Starts at 4:30 P.M.

The program will get underway at 4:30 p.m. Reidelberger will be the principal speaker and will moderate the panel in the 7 p.m. evening session.

Judge Michael Kenney will explain the work of the juvenile court during the night session and participate in the panel.

Other panel members will include Earl Huck, regional director of the Illinois Youth Commission, and Dr. J. Robert Russo, associate professor of psychology at the SIU Center for Study of Crime, Delinquency and Correction.

More than 400 invitations have been sent to PTA members, school administrators, counselors, civic and service clubs and church groups in the three-county area. Any interested person is urged to attend.

Reservations for the 6 p.m. dinner may be made with Mrs. Ray Collins, 3800 Rock road, East Alton, by March 28. A question and answer period will follow the panel discussion.

Worker, Jobless Totals Decrease

Labor-management disputes, a prolonged period of adverse weather and normal seasonal outbacks reduced Quad-City work rolls to 16,225 in mid-January, latest reports to Malcolm A. Thompson, local Illinois State Employment Service manager, show.

This represented a drop in employment of 2575 in comparison with year-ago figures and a reduction of almost 900 from the 17,100 at work in mid-summer, Thompson said.

Greatest decline over the past 12 months was in manufacturing, where manpower rosters slumped 2575. In non-manufacturing, the decrease was 200.

The unemployment level of 1225 was below the mid-July figure but 225 above the mark of January 1967.

"The outlook, as reported by surveying employers, is for a spring and summer rise in employment as primary metals and a construction expand," Thompson commented.

Sixty-one non-agricultural firms participated in the report.

"A survey of the active file of job applicants at the Granite City ISES office indicates that 56% of current applications are for individuals in the 23-44 age bracket, with the other 44% equally divided between those 22 and younger and those 45 and above.

"Analysis of this file shows 19% clerical and sales, 17% service, 14% processing, 13% structural, 2% managerial and 3% in all other categories.

"Decline of entrants and re-entrants into the work force, plus recall of work crews in transportation, were the major factors behind the six-month decline of 550 in joblessness."

Fertilizing Home Fruit Trees

Now is the best time to fertilize your fruit trees if they need it.

There are many trees that do not need an annual feeding. This depends upon the soil.

A severe pruning treatment will replace the need for fertilizing for a year. Naturally fertile soils or those that have been improved through additions of compost and fertilizers usually require little treatment.

Whether or not a tree needs fertilizer is based upon the average shoot growth made last year. A study of the growth habit of the tree and the color of the wood will indicate to you how much growth was made.

Young fruit trees (under five years) should have an average shoot growth to 24 inches a year. Trees older than this should show a decline in annual growth and have terminals 3 to 12 inches long, depending on the variety and kind of tree.

Nitrogen is the element required in the greatest amount. It can be applied by itself, or in a mixture with other elements.

10-10-10. If a mixed fertilizer is used, apply $\frac{1}{2}$ to $\frac{3}{4}$ pound per year of age of tree. Use the low rate on vigorous trees and the high rate on trees with short shoot growth. Do not exceed 10 pounds per tree. If 33-0-0 is used for nitrogen alone, reduce the above amounts by one-third.

Apply the fertilizer material to the soil area under the spread of the branches. Don't put the fertilizer within 6 inches of the trunk.

More details on fruit tree fertilization and related practices can be found in the University of Illinois Department of Horticulture Fruit Growing Report Number 18. A copy of this can be obtained from your local Agriculture Extension Adviser.

Fertilizing Small Fruits

Fertilizers should be applied now to all small fruits except strawberries. Strawberries should only be spring fertilized if they are weak and were not cared for last summer and fall. Better results result from post-harvest fertilization.

Bramble fruits should receive 1.5 to 2.0 pounds of a 5-10-5 fertilizer per 100 square feet. This can be banded along a hedge-row planting or broadcast around the plant in a hill system. Working the fertilizer in the soil is not necessary for results.

Gooseberries, currants and blueberries should receive $\frac{1}{4}$ to $\frac{1}{2}$ pound of a 10-10-10 fertilizer per plant. Broadcast this in the row under the plant.

Manure is an excellent fertilizer for grapes. Use a bushel of rotted manure per plant. If manure is not available, one pound of a complete fertilizer such as 10-10-10 should be applied per plant.

Onions Can Grow Big

Some of the big onions grown by gardeners last year was not an accident. There are some secrets to growing these prime specimens, but everyone should be able to do it.

The largest of these onions is usually the Sweet Spanish variety. Others may do as well,

but this is a proven selection.

Plants are used instead of sets or seed. Buy your plants from a reputable dealer. They should be fresh and attractive.

Set the plants early. Now is the time to get them in the ground. They thrive on cool weather and can withstand frost. Normally about 115 growing days are required for maturity.

To grow big onions, they need space and fertility. Results of tests in Urbana in 1967 showed that 4 to 6 inches between plants gave the largest size. Those that were spaced four inches apart were 25 percent larger than those spaced 3 inches apart. The average weight of onions spaced 6 inches apart was 1.2 pounds.

The fertility level of the soil also is a factor before planting. Onions require high levels of nitrogen and potash for maximum growth.

Now that the secret of big onions is no longer a secret, all you have to do is wait for harvest in late July.

Needless Errors Still Delaying Tax Process

Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, cautioned taxpayers again today to check their income tax returns before filing.

"In many cases," Philpott said, "if the taxpayer would only take time to check his return, he would discover errors for himself and thus eliminate delays in the processing of his return at our Kansas City Service Center."

"Figures released this week," continued Philpott, "show that there are still many taxpayers who forget to attach their Forms W-2 or other necessary statements or schedules to their returns. This means that the processing of their returns must be delayed until we can contact them and secure these missing documents."

Philpott added that the center has also received many returns with missing signatures or an omitted, incomplete or erroneous Social Security number.

"My advice to taxpayers is to prepare their returns now and not wait until the April 15 deadline. This will allow them time to check their returns for these errors I have mentioned as well as mathematical errors and use of the wrong tax table, line or column."

"Each mistake means a delay in processing the return and many of these errors could be avoided if the taxpayer would only check his return before filing."

Posthumous Awards for Marine Pfc Leutenegger

Marine Pfc Joe C. Leutenegger, 20, son of Mr. and Mrs. Joe B. Leutenegger, 2104 St. Clair avenue, who was killed July 2, 1967, while in action against hostile forces in Quang Tri Province, has been posthumously awarded the Military Merit Medal and Gallantry Cross with Palm from the Republic of Vietnam.

The Vietnamese decree accompanying the medals, reads: "This formalizes the posthumous award to United States Marine Private First Class Joe C. Leutenegger, with the following meritorious citation:

"A courageous combatant, well-known for his sacrifices, who always exhibited a spirit of good will and cooperation. He assisted the Republic of Vietnam Armed Forces in blocking the red wave of aggression from engulfing South Vietnam and Southeast Asia."

"With his enthusiasm and exemplary devoted manner, Marine Pfc Leutenegger willingly executed all of his entrusted missions and set a brilliant example for his comrades-in-arms."

"He died in the performance of his mission. His loss is greatly mourned by both his American and Vietnamese comrades-in-arms."

MARINE LEUTENEGGER Posthumous Award

The citation was signed by Lt. Gen. Nguyen Van Thieu for the Republic of Vietnam.

The local serviceman received shrapnel wounds from mortar fire while in combat in the vicinity of Quang Tri, about 25 miles south of the Demilitarized Zone. Some weeks earlier, he had been involved in the action which concluded with the capture of Hill 881 and Hill 888 in the Khe Sanh area.

Pfc Leutenegger had served in Vietnam since March 1967 with the First Battalion of the Ninth Marines. He enlisted in the Corps in June 1966, after attending Granite City high school. He had been active in Boy Scout troops and was known by his friends as "Little Joe."

The marine was the eighth Granite City youth to lose his life in Vietnam within a 19-month period. Since that time, seven additional local servicemen have been killed in combat.

Poppy Days to be Observed May 24-25

Permission for Poppy Days to be held May 24 and 25 by VFW Post 1300 and Tri-Cities American Legion Post 113 was granted Monday night by Granite City council members.

The sales of VFW Buddy Poppies and Legion Memorial Poppies are held annually before Memorial Day to aid disabled war veterans and the widows and orphans of servicemen.

Heading the VFW Poppy sales will be John W. Moran and Lee Ann Moran, while the Legion Auxiliary headed by Mrs. Pauline Birk, president, and Mrs. Mildred Rees, chairman, will handle the Memorial Poppy sale.

The council also gave permission to the Jaycees to place a banner across Madison avenue between the post office and the American Legion home to publicize its annual pancake brunch on May 12. Gary Correll is chairman of the event.

Area Hearing Set On Changes in State Air Laws

Plans for a series of hearings on proposed amendments to current state air pollution control regulations — including one at 11 a.m. April 2 in East St. Louis — were announced Tuesday by the Illinois Air Pollution Control Board.

The other two hearings will be held in the city hall at 10 a.m. and in the Commerce Commission hearing room of the State Building at Chicago April 5, beginning at 8 a.m.

The East St. Louis meeting will be held in the Council Chambers of the East St. Louis city hall, beginning at 11 a.m.

Air Pollution Control officials have planned the hearings to obtain comments on proposed amendments to existing regulations controlling emissions of smoke and particulate matter, and on proposed new regulations requiring certain actions to prevent high levels of air pollution which may cause acute harmful effects.

Persons interested in testifying at the hearings have been asked to notify Clarence W. Klassen, technical secretary, room 216, State Office Building, Springfield, so that they may be scheduled to appear at the meetings.

Pure Air, Water Group Named by Gov. Kerner

Gov. Kerner has named members of the statewide Illinoisans for Pure Air and Water committee to serve with state co-chairmen, William L. Rutherford of Peoria and Maynard P. Venema of Northfield. None of the members are from the Quad-Cities area.

"Our purpose is to alert citizens to the air and water pollution problems we face and some of the ways we can combat the crisis," Rutherford, a Peoria attorney, said.

"Our immediate goal is to inform voters as to the importance of the proposed billion dollar bond issue for air and water pollution abatement and improved outdoor recreational areas," according to Venema, chairman of the Universal Oil Co.

The Illinois resource development bond issue, to be voted on in November general election, provides for a 12-year multi-faceted effort for the development and management of the water, land and air resources of the state.

Specific goals include the control of water and air pollution, development of sufficient outdoor recreational facilities, the reduction of flood losses and the provision of adequate water supplies for cities, industries and farms.

City Funds Run Low as Year Nears End

Balances totaling \$771,479 were available in all Granite City fund accounts as of March 1, with \$208,898 of the amount remaining in the general fund, Comptroller Robert Stevens reported to the city council Monday night.

The report showed a total of \$562,540 in the city's special accounts, bulk of which is represented in a balance of \$183,329 in the working cash fund, \$87,529 in the parking meters account and \$69,534 in the sales tax account. The sales tax balance does not include a December allocation of \$33,000 received this month.

In the general fund a balance of \$18,273 was reported in the tax commissions fund which originally totaled \$13,427, but from which \$116,220 in transfers were made to bolster other accounts. The tax commissions account in the general fund and the parking meters and sales tax accounts in the special funds are used primarily as reserves. Monies are transferred from those accounts to operational funds when they are depleted.

General Fund Receipts

Receipts in the general fund during the ten months of the current fiscal year totaled \$1,484,389, including transfers, and total available monies in the special accounts, also including transfers, amounted to \$1,568,712, the report showed.

Ten months of expenditures from all accounts total \$1,169,210 in the general fund, plus \$116,250 in transfers out of the tax

commissions account, and \$551,580 out of the special accounts, plus \$452,501 in fund transfers. Most of the transferred funds in the special account were taken out of the sales tax fund, amounting to \$409,545.

All accounts in the general fund show balances as of March 1, but several are insufficient to finance operations for the remaining two months of the fiscal year which ends April 30. Further transfers into these funds are expected to be made to finance continued operations.

The report shows a balance of \$26,469 in the general fund fire department account, with expenditures of \$256,117 thus far in the fiscal year. The street department, which has spent \$175,849 thus far, has a \$48,018 balance. The city hall account, from which expenditures of \$27,336 have been made, has a balance of only \$1006. The police department account, costliest of all city funds, has spent \$294,487 during the ten months of the fiscal year and has a balance of only \$12,576 for the remaining two months of the year.

Report Account Balances

The sanitation account, with expenditures of \$116,771 so far this year, has a balance of \$15,583. Balance in the general government account of the general fund is \$24,712, with total expenditures of \$113,348 during the year.

Special account balances include \$110,078 in the arterial

street maintenance fund, from which \$219,797 has been spent during the fiscal year. The working cash fund has a balance of \$183,329. Only \$30,000 has been transferred from the working cash fund thus far.

Receipts for all city accounts during the ten months of the fiscal year amount to \$3,081,112, including transfers, the report shows.

The city began the year with aggregate balances of \$501,731. Revenue receipts of \$1,969,539 plus transferred funds of \$568,841 accounts for the total of \$3,061,112.

Total expenditures out of all accounts amount to \$1,720,791 plus \$568,841 in transferred funds, the report shows.

\$65,000 Judgment Over Plant Accident

A \$65,000 judgment was returned by a jury in favor of Henry Nowicki of Madison against Union Starch & Refining Co. during a week-long trial last week in the Granite City division of circuit court.

Nowicki, a boilermaker, was injured in a 10-foot fall at the local plant more than two years ago. An appeal to the appellate court in Mt. Vernon is expected to be made. His attorney is Morris Chapman of Granite City.

4 Training Sessions For Election Judges Planned

A series of training courses for election judges who will serve in the primary and general elections this year will be conducted by County Clerk Eulalia Hotz beginning Saturday and continuing through Sunday, March 31.

Four training courses in separate parts of the county have been arranged to make it more convenient for judges from various parts of the county to attend the classes in their own areas. Miss Hotz pointed out the training is required by state law and must consist of several hours of instruction and an examination.

The training class for the Quad-City area will be held March 30 in the Granite City

high school cafeteria, 3101 Madison avenue, with one class beginning at 3 p.m. and another at 7 p.m. Two classes, one in the afternoon and one in the evening, will be conducted at three of the training sessions and judges may attend whichever class is most convenient.

The exception is the course for Alton area judges which will be held Sunday, March 31, in the Mineral Springs Hotel. Miss Hotz said since this class will be held on a Sunday it was as-

sumed all of the judges could attend one class which has been set for 3 p.m.

First of the four training sessions will be held Saturday, March 23, at the Edwardsville junior high school cafeteria. The other is scheduled next Monday, March 25, in the VFW hall at Highland.

Miss Hotz said the law also provides that the county pay \$5 to each of the judges who attend the instruction classes and passes the examination.
